

**Mayor Gonnelli & the Town Council
Invite all residents to visit the
Town Museum**

**ALL ABOARD!
Trains are Running at the Museum!**

After a collaboration from several sources, the Town Museum has built a unique exhibit of Lionel Trains made in 1950. **They're running! Sound effects and all!** A see-through platform has been erected, hanging from the ceiling, allowing visitors to view the trains from below and also an elevated view from a staircase built for children only.

There are two separate tracks operating; one with a small Lionel train set and one with the larger train. In addition to the cabooses, tenders and cattle cars, an entire village has been set up with everything from barns, animals, churches, drugstores, trees, signs, lights and an operating floodlight tower.

This exciting endeavor was conceived, planned, built and executed by museum directors Tommy Schwarz and Scott Schaffer.

You can't miss this exhibit! Bring the entire family. The Town Museum is open on Saturdays from 11am to 3pm. Admission is always free!

GRAND OPENING....SATURDAY, MARCH 6TH
